PROFESSIONAL SUMMARY

Technical Training Specialist and Full-Stack Developer with 4+ years of experience in web application development and 3+ years of hands-on training delivery, mentoring, and curriculum development. Skilled in Angular, HTML/CSS, and front-end tooling with direct marketing operations experience, including Google Tag Manager integration, campaign analytics, and digital content workflows. Proven facilitator across online webinars, technical workshops, and 24-hour hackathon coaching sessions. Adept at designing learning programs, assessing learner progress, and collaborating cross-functionally with stakeholders to align training outcomes with business goals. Seeking a Training Delivery Specialist role where technical depth meets instructional excellence.

TECHNICAL SKILLS

Training & Facilitation: Curriculum Development, Workshop Facilitation, LMS Administration, Adult Learning Principles, Instructional Design, Assessment Design

Marketing & Analytics: Google Tag Manager (GTM), Marketing Analytics, Campaign Workflows, Email Marketing Concepts, Content Creation, Google Workspace (Docs, Sheets, Slides, Meet)

Front-End Development: Angular (v12-20), HTML5, CSS3, SCSS, TypeScript, JavaScript, Bootstrap, Tailwind CSS, Nebular UI

Back-End & Tools: Ruby on Rails, SQL, Git, GitHub, GitLab, Sanity.io (Headless CMS), Razorpay API, Sentry, Schema.org, Figma, NPM

Practices: Agile / Scrum, Project Management, Cross-functional Collaboration, Stakeholder Communication, Code Review

PROFESSIONAL EXPERIENCE

Lead Software Developer – Commudle, New Delhi

May 2024 – Present

- Designed and delivered internal onboarding and technical training programs for new developers, covering Angular architecture, RoR API design patterns, and production workflows, reducing ramp-up time for new team members.
- Facilitated structured Agile ceremonies (sprint planning, stand-ups, retrospectives) for a cross-functional team, ensuring alignment between engineering deliverables and product goals.
- Mentored and coached junior and mid-level engineers through pair programming, code reviews, and 1:1 knowledge-transfer sessions, measurably improving team code quality and velocity.
- Designed and shipped end-to-end Razorpay payment integration, partnering with stakeholders across product, design, and finance to align technical delivery with business requirements.
- Partnered with product managers and designers to translate complex requirements into scalable, production-ready web features using Angular and Ruby on Rails.

Software Developer, Commudle, New Delhi

Aug 2022 – Apr 2024

- Integrated Google Tag Manager (GTM) to enable real-time marketing analytics and campaign tracking, eliminating redeployment overhead and giving marketing stakeholders self-service control over tracking configurations.
- Built and optimised a reusable Angular component library, improving frontend load times by 20% and establishing reusable patterns that accelerated feature delivery across the team.
- Supported cross-functional teams by documenting technical processes and translating engineering decisions into clear, non-technical language for product and marketing stakeholders.
- Collaborated with design and product teams in Agile sprints to deliver user-centric features on schedule, managing priorities across multiple concurrent workstreams.

Software Developer Intern, Commudle, New Delhi

May 2022 – Jul 2022

- Developed responsive Angular web interfaces supporting 10,000+ monthly active users, improving UI consistency and cross-device compatibility.
- Integrated Sanity.io as a headless CMS, reducing content update turnaround by 30% and decoupling content management from engineering deployments, enabling non-technical team members to manage content independently.

- Shipped production-ready, peer-reviewed code within the first month by following scalable frontend architecture best practices.

Teaching Assistant (Technical Trainer), *Coding Ninjas, New Delhi*

Apr 2020 – Aug 2020

- Designed and delivered structured learning modules covering Node.js fundamentals, frontend development, and debugging methodologies for a cohort of 50+ students, applying adult learning principles to maximise engagement and retention.
- Created assignments, coding exercises, assessments, and evaluation rubrics to measure learner progress, identify knowledge gaps, and adapt instructional content to individual learner needs.
- Facilitated one-on-one and group coaching sessions (live and asynchronous), guiding learners through real-world full-stack projects and improving cohort project completion rates.
- Developed supplementary instructional materials including step-by-step guides, reference documents, and code walkthroughs to support self-paced learning and reinforce classroom sessions.

Technical Support Executive, *Netplus Broadband PVT LTD, Ludhiana, Punjab*

Dec 2020 – Apr 2022

- Managed a high-volume support queue of 50+ tickets daily, applying structured problem-solving workflows to resolve ISP server and network connectivity issues efficiently.
- Trained and coordinated a team of 4 support technicians, designing issue-resolution protocols and shift workflows that improved average ticket resolution time by ~25%.
- Maintained internal databases of service reports and outages, leveraging data insights to identify recurring issues and prevent future incidents.

Social Media & Content Specialist, *BBSBEC, Sirhind, Punjab*

Nov 2019 – Nov 2020

- Managed the college's official Facebook and Instagram channels, owning end-to-end content creation, scheduling, and campaign execution, growing student engagement by ~40%.
- Coordinated with the college marketing team to design and deliver promotional campaigns for events, significantly increasing online reach and event participation.
- Demonstrated core marketing workflow skills: content calendaring, audience targeting, engagement analytics, and digital community management.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2016 – 2020

Baba Banda Singh Bahadur Engineering College (MRSPTU), Punjab, India

CERTIFICATIONS

- **Angular Basics:** HackerRank (May 2025)
- **SQL Basics:** HackerRank (May 2025)
- **Back End | Full Stack Web Development (Node.js):** Coding Ninjas (Jun 2019 – Jan 2020)
- **Front End | Full Stack Web Development:** Coding Ninjas (Jun 2019 – Sep 2019)
- **Java Foundations with Data Structures:** Coding Ninjas (Jul 2018)

KEY ACHIEVEMENTS

- 1st Place, Web Design Competition: Baba Banda Singh Bahadur Engineering College (Sep 2018).
- Main Leader, Institution of Engineers (India) Student Branch + IEEE Student Branch Member (2017–2020).
- Recognised as Best Organiser across multiple technical workshops and seminars.
- Technical Expert, College Photography Club: led technical operations and digital content initiatives.
